SUMMARY **A quality-driven dynamic Front-end Web Developer with over 4 years of experience in developing and managing content across a wide range of web services with a diverse group of developers using agile and waterfall methodologies.**

WORK EXPERIENCE **JULY 2017 - PRESENT Training and Support Specialist**

- Developed content strategy for key templates in a major design system overhaul.
- A key contributor to quality control feedback for WordPress pattern libraries
- Contributed and received feedback during weekly stand-ups and code reviews
- Contributed to multiple design and development projects, including a million-dollar overhaul and redesign of Vanderbilt's digital experience
- Delivered this project on time and on budget during a global pandemic thanks to the work of our project team, on which I served as a content strategist, quality assurance engineer, and junior developer.
- Worked with a diverse team of developers who used agile methodologies
- Completed tasks as varied as updating web page content in WordPress, debugging code, client communications, user training, and quality control of both the back and front-end experience of the people who use our sites and applications.

EDUCATION 12/2020 - 08/2020 **Vanderbilt University Coding BootCamp**
Full Stack Web Developer; Certificate;

 08/2012 - 12/2017 **Tennessee Technological University**
